## I . Welcome Letter

Dear Colleagues,

Welcome to the 26th International Ornithological Congress, which will be held in Tokyo, Japan in the summer of 2014. Japanese ornithology has enjoyed a long and distinguished history in all areas of avian biology and maintaining a wide international network of collaborative studies. The host and sponsors of the 26th International Ornithological Congress are committed to enable as many avian biologists and ornithologists to attend the congress and present their studies.

International ornithological congresses have a long history of integrating all branches of science, from basic research in physiology, morphology, and molecular biology, to applied research in conservation, medicine, and agriculture, because birds are the experimental vertebrates of choice when trying to find answers to problems in these various areas. Ornithology also enjoys the distinction of attracting a large and increasing number of amateurs who are interested and involved in various research projects, and the 26th International Ornithological Congress will include programs that will be of interest to both professional and amateur ornithologists.

The 26th International Ornithological Congress will also offer a variety of pre-congress and post-congress tours, which will be accompanied by expert ornithologists, to destinations that are of special interest to ornithologists and often outside the more easily accessible spots.

The Congress presents opportunities for companies and organizations to support our endeavors by becoming sponsors or exhibitors. At the same time you will receive outstanding exposure for your brand and have a visible presence to a meaningful audience. Sponsorships opportunities include donations, exhibitions, advertisements, and other means such as give-outs sponsors and receptions sponsors, etc.

Prof. Franz Bairlein,  
President of the IOC

Prof. Dominique Homberger,  
Secretary of the IOC

Prof. Erik Matthysen,  
Chair of the Scientific  
Program Committee

Prof. Keisuke Ueda,  
Congress Convener
